DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Masayoshi et al. (JP 11059283 A – English machine translation of detailed description).

Regarding claim 1, Oya Masayoshi et al. (figure1) disclose in-vehicle hands-free cellular phone sets utilize a pair of radio transmitter/receiver modules workable at similar radio frequency, where the two-way communication of call-in and call-out is performed by the said two radio transmitter/receiver modules, one (9) built in the said cellular phone (1), and the other (10) set in the said sunshade of the vehicle (11); hence, the said sunshade serves as an effective hands-free means for the driver to use the cellular phone conveniently and securely without the need of intricate change-over of wire connection (paragraphs [0017] – [0025]).

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

UI Azam et al. (US 5,566,224) disclose radio frequency communication device including a mirrored surface.

Kim et al. (US 5,943,627) disclose mobile cellular phone.
